This certificate remains valid only if the feature is exhibited in the form approved, and the Board reserves the right to review or withdraw this certificate if circumstances alter. Proposed changes of detail in an approved feature must be cleared with the Board in advance, but such permission will not be unreasonably withheld. If cuts have been required at any stage, either by the Board or the distributor, one complete set of these cuts must be deposited with the Board for record purposes before the certificate is issued, and the final version of the work must be approved.
